

## Ditto

Cassie

He said he had fallen so in love with me  
And I said ditto, ditto, ditto  
He told me I'm the only one that he could see  
And I said ditto, ditto, ditto

It's been a while my baby  
I told you we could love in spite of all the things that they see  
I said I wouldn't want no one if all you wanted was me  
I knew back then you were the only one you're all that I need  
Oh, (Knew where were all that I need)  
(Baby now I gotta be-part of you, you're part of me)  
All my heart, everything  
All this time you've been waiting

He said he had fallen so in love with me  
And I said ditto, ditto, ditto (and he said)  
He told me I'm the only one that he could see  
And I said ditto, ditto, ditto

I've looked far for somebody that was there for me  
Cause he's part of me nobody else could ever see  
(And don't say) ah baby (I need you're loving)  
All I wanted was you (you're all that I wanted)  
(Baby now I gotta be-part of you, you're part of me)  
All my heart, everything  
All this time you've been waiting  
(I've thought about it oh so long) yeah  
(How much I need you more and more)  
I said (baby if you want it from me)  
Boy you know that I will agree  
That's why

He said he had fallen so in love with me  
And I said ditto, ditto, ditto (and that's when he told me yeah)  
He told me I'm the only one that he could see (said that I'm the only one)  
And I said ditto, ditto, ditto (oh that's when I had to tell him)

Ain't it so funny how real love can be simple babe  
We find someone to share it with that feels the same  
I can see it in your eyes what you mean to say  
And baby you can rest assured that I feel the same way

He said he had fallen so in love with me  
And I said ditto, ditto, ditto  
He told me I'm the only one that he could see  
And I said ditto, ditto, ditto

He said he had fallen so in love with me  
And I said ditto, ditto, ditto  
He told me I'm the only one that he could see  
And I said ditto, ditto, ditto
