

When Your Body Is Talking

Cassie

Ain't no use in speakin' when
Boy your body is talkin'
Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin' louder and louder

Boy I know what you want
Baby I can read your body language
(no need to say it i, know just what you feel)
Cause its written all over your face
And now you want to stay with me yeahh
(love it when we get close see it all in your eyes)
All of our emotions start to give in thats the way we really realize
(and we cant escape this feeling taking over)
Oh I know just what your body's saying
So ain't no use in speaking

Ain't no use in speakin' when
Boy your body is talkin'
Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin louder and louder

Ain't no use in resisting how you feel I know you want this
(don't hesitate no, give in to what it is)
Cause its time and place
Your smile you got me so excited
Ohhh yeahh
(love is)

Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin' louder and louder
Ain't no use in speakin' when
Boy your body is talkin'
Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin' louder and louder

Oh I cant get it now
Caught up in the moment
Temperatues flowing up
You know what your doing to me
(i cant even say what, ain't no use in talking now...)

Ain't no use in speakin' when
Boy your body is talkin'
Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin' louder and louder

Ain't no use in speakin' when
Boy your body is talkin'
Ain't no use in speakin' when
Boy your body is talkin'
I can hear it talkin' louder and louder
