See Me Now

After all the everyday I've been thru all my life After all the today I've been waiting for you After all the someday I've been dreamin' about How do you see me now How do you see me now

Twenty years I've been through Aimin' not to loose north More than once came to you Always runnin' a bit short Not even once I came back Free of wondering about How do you see me now How do you see me now
