

Guiding Star

Cast

Get up, get up, get up, get up

Here comes my guiding star
To take me home
I've travelled lands afar
We blindly roam

We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you

Get up, get up, get up, get up

Ten thousand years apart
And still remain
You carve into my heart
A sacred name

We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you

Get up, get up, get up, get up

We got a glimpse of a forgotten dream
We got a glimpse of a forgotten dream
We got a glimpse of a forgotten dream
And we want it to pass to you

Here comes my guiding star
To take me home
I've travelled lands afar
We blindly roam

We spread our wings
In search of truth
And all it brings
We got a glimpse of a forgotten dream
And we want it to pass to you

Get up, get up, get up, get up
