

# Magic Hour

## Cast

Take a good look  
In your own time  
See the world laugh  
Through a child's eyes  
Sunshine  
Shine until you're mine  
It's just a magic hour  
Just a magic hour  
Such a magic hour  
Now I know we can drift away now  
If only we find a way how  
Now I know we can drift away now, how  
If only to find a way out, how  
Take a good look  
In your own time  
See the world turn  
Through your own eyes  
Sunshine  
Shine until you're mine  
It's just a magic hour  
Such a magic hour  
Such a magic hour  
Now I know we can drift away now  
If only we find a way how  
Now I know we can drift away now  
If only we find a way out  
Now I know we can drift away now, how  
If only we find a way how  
I know we can drift away now, how  
We've only to find a way out  
Well I know we can drift away now  
If only we find our way how  
Now I know we can drift away now  
If only we find a way out  
Out, out, out, out
