Walkaway

If you've heard all they got to say You looked but turned away Walkaway, walkaway If you've said all you got to say And now the words just slip away Just walkaway, walkaway That's what they say, what they say, what they say You gotta walkaway

If you've played all the games they play You played them yesterday Walkaway, walkaway If you've been, where they want to go Seen all they got to show Just walkaway, walkaway, walkaway That's what they say, what they say, what they say You gotta walkaway

And now you must believe me You never lose your dreams And now you must believe me We never lose our dreams

If you've proved all there is to prove Got nothing left to use Walkaway, walkaway If you've done, all there is to do There ain't nothing left for you Just walkaway, walkaway, walkaway That's what they say, what they say, what they say Walkaway, walkaway, walkaway That's what they say, what they say, what they say You gotta walkaway Today
