Back of Your Head

Cat Power

Big monster
Big monster lover
A bigger pusher over
Stands alone in most walks of life
Walks alone in most walks in life

See you looking through me Like you've unzipped the zipper You hold the big picture so well Can't you see that we're going to hell

Couldn't park that fucking car Couldn't part from you Saw the back of your sweet mother's head Now I know that she thinks I am dead

Burnt flavor you hold the big picture so well Can't you see that we're going to hell

Big monster lover A bigger pusher over Stands alone in most walks of life Walks alone in most walks in life
