Bathysphere

Cat Power

When I was seven
I told my mother
'Take me to the bay and put me on a ship'
Silver swordfish
Of electric
I can feel a dream down here
If the water should cut my mind
If the water should cut my life
If the water should cut my mind, set me free
I don't care
I want to live in a bathysphere
When I was seven
No fether acid to me

My father said to me 'But you can't swim' And I never dreamed of the sea again

If the water should cut my life If the water should cut my line If the water should cut my mind, set me Free

I don't care I want to live in a bathysphere
