Baby Get Your Head Screwed On

Cat Stevens

Well if you're feelin' low, take it slow

Baby get your head screwed on I know he's left, but don't be depressed Baby let your favorite daddy see you through

Oh baby you'll be out of your mind, Baby you'll be out of your mind, Baby you'll be out of your mind.

You know you're nice, you're sugar and spice And I know what you're going through And if you're hot HOT, and even if you're not Baby let your favorite daddy see you through

Oh baby you'll be out of your mind, Baby you'll be out of your mind, Baby you'll be out of your mind.

You were so neat, ever so sweet, And overnight you've seemed to change Since you kissed your psychiatrist Baby, you've never been the same.

Well if you're feelin' low, take it slow
Baby get your head screwed on
I know he's left, but don't be depressed
Baby let your favorite daddy see you through

Oh baby you'll be out of your mind, Baby you'll be out of your mind, Baby you'll be out of your mind.
