

Crazy

Cat Stevens

I'm crazy 'bout you baby, my my my
You love just drives me crazy, heaven knows
Why
So let me love you while, the moon's still high
Guarantee you we'll have a good time
Making love under the stars

I feel the earth move when I'm in your arms
Got the river Nile in my veins
And when you're with me, darling I could be
The white rabbit falling into space
Look at him go

I crazy 'bout you baby, my my my
You love just drives me cuckoo, heaven knows
Why
So let me love you while, the moon's still high
Let yourself go and have a good time
Making love under the stars

I see the lights dance when we're holding hands
It's like magic being with you
And when I'm dogged out, I still dream about
All the simple things that you do
All the little things

I crazy 'bout you baby, my my my
You love just drives me crazy, heaven knows
Why
So let me love you while, the moon's still high
Let yourself go and have a good time
Making love under the stars
