

# I See a Road

Cat Stevens

I see a road and I want to go home,  
I want to go home, my baby will be waitin' there  
With a yellow ribbon in her hair  
And I know that she won't disappear cuz she loves me  
Too much

I see a road and I want to go home,  
I want to go home, my baby will be gettin' old  
And I want to make sure she's not cold  
Yes, I want to make sure she's not cold cuz I love her  
Too much

Where silk music plays out in the country out of the way  
We'll make love, yeah, under the blue sky above  
And we'll be riding on top of the world

I see a road and I want to go home,  
I want to go home, my baby will be waitin' there  
With a yellow ribbon in her hair  
And I know that she won't disappear cuz she loves me  
Too much

I see a road and I want to go home...
