

## Lust & Innocence

Catafalque

Darkness breeds in my eyes  
While the love becomes, innocence dies  
Until you arise to my spirit  
I couldn't realise how bright your eyes  
(Like me)

Lust I want, blood I drink  
Love I feel, they are yours  
Hate I hate, love I love  
Death I kill, more and more

I waited for you to love me each day I lived  
But there was just one way to exit  
And to die to reach my pains  
I am in a maze within dark reflections

Lust I want, blood I drink  
Love I feel, they are yours  
Hate I hate, love I love  
Death I kill, more and more

Life appears me, as an illusion  
My breast was sealed by evil  
No more innocence, no temptation  
I am in maze, my precious

Lust I want, blood I drink  
Love I feel, they are yours
