

The Soothsayer

Catafalque

Let me tell you the truth of it all
He sees the future of the world
No more lie in his eyes
As pure as new bride

He has strength in his mind
Enough as destroy all mankind
He has a fate like others
He tries to save us from this lie

In the dark temple of evil
Demons wander among us
He saw all of the heathens
Darkness never takes his soul & mind

Soothsayer's staying silent
As the painful scream of mouth
Who it gnaws the rotten wood

He had injured nobody else
He should prove who he was
We would learn what he meant
When he came back as the destiny

In the dark temple of evil
Demons wander among us
He saw all of the heathens
Darkness never takes his soul & mind
