

Rain of Blood

Catamenia

(Martti perkele, Saatanan Martti..!)

Lords of chaos, rulers of death
In your hands waits the last breathe

Dominator of the numbers
Show the way, secrets of six

Power of dark will rise above tonight
Living a soulless life

Rain of blood wash us away
Statues of life will never see the day
Mistress of the night seduces the light
Innocent smile provoke to endless suicide

Power of dark will rise above tonight
Final global war turn hell into sky

Northern secrets on my side
Living a soulless life
