

Blues Song

Catatonia

I do think that you could be
Anything that you want to be
It's easy, easy when
you say that time will tell
It don't mean the last orders
bell is ringing, ringing
And there's always plenty more
G&T in the sea

You keep playing the
same tired old blues songs
Over the same tired
old blues chords
Put those songs to sleep
They don't make me
weep anymore

You're empty glass ain't
no crystal ball
It can't tell you
what the future's bringing,
bringing it's bank
holiday mundane
Medazalan may help to stop
that stinging, stinging
and there's always plenty more
G&T in the sea.

You keep playing the
same tired old blues songs
Over the same tired
old blues chords
Put those songs to sleep
They don't make me
weep anymore

And let it begin again,
let it begin again
With a hearty meal
and a map to read
Oh life's been good to me

So keep playing those same
damn old blues songs.

Keep playing the
same damn old blue songs
Oh they don't make me
weep anymore, anymore

Keep playing the
same damn old blues songs
Over the same damn
old blues chords
Put those songs to sleep
They don't make me

weep anymore

Keep playing the
same damn old blues songs
Over the same damn
old blues chords
