

## Fall Beside Her

Catatonia

Take my word, I'll try to make it clear, yeah  
You could never be like you'd been then  
Have you never tried to stay behind?  
One touch and they all fall beside her, yeah

It's said that you're the kind to run and hide, yeah  
Is it better than to leave to all inside?  
Slow down, you're racing fast for now  
You'd shine with half your given power

Tria cadw'r brenin yn ei le, yn ei deurnas-saff  
Y rhai a lloches yn ei lewys

You see my hands I've been caught at it again, yeah  
Another finger serves to single out the blame  
Have you never tried to stay behind?  
One touch and they all fall beside her, yeah
