

Go tell the captain
There's no waters left
To navigate
I sailed them all for you
Go tell the engine room
Stop stoking up the fire
We're out of fuel

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy

We'll build new ring roads
To go nowhere in particular
Now you've passed your Highway Code
And make new inroads
Into plundering the Earth
For some more fuel

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy

Go ask the Government
You voted in on trust
Where is our fuel?

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy

Doom looms large on my horizon
Mountain toxic, river poison
Fools get votes in a democracy
