

## Fuel

Catatonia

Go tell the captain  
There's no waters left  
To navigate  
I sailed them all for you  
Go tell the engine room  
Stop stoking up the fire  
We're out of fuel

Doom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracy

We'll build new ring roads  
To go nowhere in particular  
Now you've passed your Highway Code  
And make new inroads  
Into plundering the Earth  
For some more fuel

Doom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracy

Go ask the Government  
You voted in on trust  
Where is our fuel?

Doom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracy

Doom looms large on my horizon  
Mountain toxic, river poison  
Fools get votes in a democracy
