

# Long Time Lonely

Catatonia

It's all getting messy  
Seamlessly sloppy  
Only fit for the bin  
Oh, what a mess I'm in

Regret can be a fuel  
Blisters mean renewal  
But all that stuff tastes of him  
It's time to jack it in

I've been a long, long, long, long, long time lonely  
But I can see the reasons in your eyes  
Since you've been gone, gone, gone, gone  
I've thought of you only  
And your intelligence is no surprise

You filled your head with travel  
Life become unraveled  
And opens that door in your soul  
Then nothing can fill that hole

Hope is carrots dangling  
You to me are tempting  
Slim, tall, fat, small or thin  
Nothing is happening

I've been a long, long, long, long, long time lonely  
But I can see the reasons in your eyes  
Since you've been gone, gone, gone, gone  
I've thought of you only  
And your intelligence is no surprise

Pool, sunblock, pool, sunblock, sea  
Pool, sunblock, pool, sunblock, sea  
Oh, s-s-sun stroked my back and it makes it peel  
Oh, sun stroked my back and it makes it peel

S-s-sun stroked my back and it makes it peel  
Oh, sun stroked my back and it makes it peel  
S-s-sun stroke  
S-s-sun stroked my back and it made it peel

S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel  
S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel

S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel  
S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel

S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel  
S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel

S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel  
S-s-sun stroked my back and it made it peel  
Oh, sun stroked my back and it made it peel  
S-s-sun stroked my back and it made it peel
