

## Shore Leave

Catatonia

From London to Lisbon  
And all points between  
Find people to lean on  
And one man to please

We all need someone, we all  
need something, we all need...

I'm lustless, lifeless  
The scent of my skin  
It means nothing without you  
That's where it begins

We all need someone,  
We all need something,  
We all need... We all need...

Get out, for your sakes,  
do you want it ?  
No promises are spoken  
Take it or leave it, do you like it ?  
And no man's heart gets broken

One day to another,  
I'm head over heels  
One room to another,  
it sets the same scene

We all need someone,  
We all need something,  
We all need... We all need...

Every man for himself,  
just for a little while  
Every man for himself,  
just for a short while

You could come around,  
we could fool around,  
and get down  
It's the way it could be  
"it's the way it's always been"

Oh, from London to Lisbon  
I'm head over heels  
Take it or leave it,  
just come as you please  
We all need

Someone, somehow,  
somewhere
