## What It Is

## Catatonia

It's whats not there that makes What's there what it is
It's what's not there that makes What's there what it is

Seems like we're quite in demand More faint praise, Well I'll be damned Ships run aground on the rocks Not all that unorthodox

It's what's not there that makes
What's there what it is

Fate cuts her cloth...
Ragged mean
You miss the ceremony
He sleeps, she wakes,
then she tires
Leave us to our frying pan
and fires

It's what's not there that makes
What's there what it is

It's sculpture, sculpture feed me to the vultures It's what's not there that makes What's there what it is
