

Asa

Catfish And The Bottlemen

When our minds are crushing
You ring me up
And say baby I'm alone
And I've got ideas
Won't you please come and pick me up?

And we'll disappear from town
There's a little place I've found
By my work
It's down by the Mersey
She tried to show me how much she missed me

And I said please, honey save it

Cause I just want to know, how you feel, about us
And I, just want to know where you spent last night!

I bet you didn't recall the night where we start
And you led me on, and they all went out
Without us, and we stayed back and rumbled

You with your misleading tattoos
And your New York City style
And your Jackie Ryan soul

And she said please, honey save it
Cause I never meant for it to get this good

I just want to know, how you feel, about us
And I, just want to know where you spent last night
Cause I just want to know how you think about him
When you're with me, or that you do him good, she said
Please, honey save it
