

Heathrow

Catfish And The Bottlemen

Love her from the get go
Pick her up from Heathrow
Whenever she needs me

Watch her on the West End
Pepper up her best friends
Whenever she needs me

She was a different league
When I was nothing much

Meet her when the tour's up
Hug her like her Mother would
Whenever she needs me

Snog her in the kitchen
Dance with her to Lemonworld
Whenever she needs me

She was a different league When
I was nothing much
