

## Heathrow

## Catfish And The Bottlemen

Love her from the get go  
Pick her up from Heathrow  
Whenever she needs me

Watch her on the West End  
Pepper up her best friends  
Whenever she needs me

She was a different league  
When I was nothing much

Meet her when the tour's up  
Hug her like her Mother would  
Whenever she needs me

Snog her in the kitchen  
Dance with her to Lemonworld  
Whenever she needs me

She was a different league When  
I was nothing much
