

Phaser Quest

Cathedral

Starlight laser points at you
Sing to the ghost of summers blue
Lay back, transcend into the moon
Mother of wisdoms' holy tomb

Phaze your sight - let it take you away
Into the ocean in your mind
Back in time take it - phaser quest
Endless visions - million miles high

Robot systems in control
Dissect your soul of golden rules
Nature groovin by your side
She gave you wings now learn to fly

(sin-termission, ilusive broadcast)

Sun shines eternally in you
The darkest day is silver too
Straight line into the galaxy
Spirals & circles - harmony
