Crawling Over Me

Catherine Wheel

Lying on the floor Where the colour doesn't show Through the open door Is a place where I won't go Time will tie my hands The willingness to try Maybe it's inside I know where it runs to

It takes up all my time I know where I want to run It crashes through my mind

It's enough to make you crawl on your knees and Crawl on your knees and Crawl on your knees and Crawl over me, Under me, over me

A piece of you that's mine A piece of you that's mine A piece of you that's mine A piece of you that's mine
