

# God Inside My Head

Catherine Wheel

I've been fed all my life  
Had stories read to hypnotise  
I bang my head against the wall

Deep inside my head I've found  
Some signs of life a mushroom cloud

I teach I read the greed, Oh this is the mouth I feed  
With love! With love! So don't be accusing me  
I've got God inside my head  
Got God inside my head

Bless my soul, one false hope take some wisdom there  
This punk's no dope and I feel the need to share

Jesus in my memory  
Just don't remind me  
Don't remind me  
Don't remind me

That I teach I reach the greed, Oh this is the mouth I feed  
And I refuse to believe, there's a cynical bone in me  
I've got God inside my head  
God God inside my head  
God God inside my head, my head, my head

If I don't wanna die  
If I don't wanna die  
I don't wanna die
