Mouthful Of Air

Catherine Wheel

Deeper and deeper I go Your hearts drowning I know All my intentions are clear I need to rescue my dear

So I dive, don't dispair Coming down, with a mouth full of air To share

To swim with the shell fish I wish Suck with the sea queen I wish Mussels and coral are here I need to rescue my dear

So I dive, don't dispair In the clear, just to see that I care Coming down, with a mouth full of air To share

I'll feed you much better
