

Shallow

Catherine Wheel

You're wasting time
Time to shake in protown ???
But I can't fight
You are the one to say goodbye
And when you shout my mouth is dry
Only when you try
Because you're shallow water running high
You know what's inside

Some righteous sin
You take my hand between your knees
And once inside
I'll only take the things that shine
You always said those things were mine
You only said goodbye
When your shallow water got too high
You know what's inside

Only when you try
Because you're shallow water running high
You know what's inside
You know what's inside
You know what's inside
