Catherine

Dance, just dance

This is a test for all of you  
To show us just what you can do  
You've got a stage inside us all  
Feel the music, dance on and on

Dance to your heart's content (2x)

Come free yourself, feel this flow  
Tonight let go

My Cinderella, I'm dancing all alone  
I'm like a prince without a crown

You know you like my moves, presenting at my best  
And if you're lucky, you might be my princess

Let's get this party started, let's start the dance war  
Grab your partner, toss and turn

This song is almost over, don't be the only one  
Let's break it down, right around, fucking-absoson  
(???)

My Cinderella, I'm dancing all alone  
I'm like a prince without a crown

Dance to your heart's content (2x)

And all will see just what you've got  
Fucking drop it like it's hot

Come free yourself, feel this flow  
Tonight let go

[Chorus]
