

Everybody Get Up

Cathy Dennis

You'll never change
The way I feel inside
In every age
The music will survive

And it'll soothe your soul
So let it take control
Don't talk it down
'Cause you don't understand

Don't turn away
As if it's not around
You've got to let it go
Let your desire flow

This things the vibe
That'll open your mind
If you go with it baby
Gotta go with it baby

Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight

Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight

Forget the blues
And think of your delight
Your peace of mind
Is all you need inside

And you can fly away
Into your soul mon cher

So turn it up
The groove is here about
Let's get it on
Let's farm this rhythm out

And into overdrive
So high and so alive

This things the vibe
That'll open your mind
If you go with it baby
Gotta go with it baby

Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight

Everybody get up

And rock your body to the rhythm
Everybody get up
And rock with me tonight

Get up get up get up get up baby
Whoa baby
Let the rhythm prompt you

Get up get up get up get up baby
Let the rhythm prompt you

Hey ayayayay yeah
Hey ayayayay yeah
Hey ayayayay yeah

Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight

Everybody get up
And rock your body to the rhythm
Everybody get up
And rock with me tonight
