

Got To Get Your Love

Cathy Dennis

We've been talkin' 'bout this thing for far too long.
Watching the world go by.
Afraid that one of us would button up
And change their mind.
But still, you know we've gotta try.
Won't you ever think of asking me to be your girl,
Or making love to me?
Better make your move.
Maybe then I'll start to show how I really feel.
Got to get a little bit of your love, baby.
Got to get a little bit of your love, baby.
Repeat 1st verse
Got to get a little bit of your love, baby.
Got to get a little bit of your love, baby.
There'll never be another, all my life.
Still, I keep waiting to say that you're mine.
There'll never be no-other, on my mind.
'Cause all these things I've been missing,
They just keep me wishing.
Just a little bit.
Just a little bit, yeah.
Got to get a little bit of your love baby
Got to get a little bit of your love baby
