

Nothing Moves Me

Cathy Dennis

It felt so nice inside my dream
The perfect man appeared to haunt me in my sleep
He knows what's right he sets the scene
Fulfilling every single need within my dream

But back to life where loving can deceive
I wish reality was not the way it seems
The only love I know I really feel
Is when the rhythm comes to take me higher

Nothing moves me like the rhythm moves me
Nothing moves me like you do baby
Nothing moves me like the rhythm moves me
Nothing moves me like you do baby, oh

Like you do baby

C'mon and move

It felt so nice inside my dream
The perfect man appeared to haunt me in my sleep
You know what's right you set the scene
Recovering part of me that no one can demean

But back to life I find a dream to see
I wish reality was not the way it seems
But there's a love I know I really feel
It's when the rhythm comes and takes me higher

Nothing moves me like the rhythm moves me
Nothing moves me like you do baby
Nothing moves me like the rhythm moves me
Nothing moves me like you do baby

Nothing moves me like the rhythm moves me
Nothing moves me like you do baby
Nothing moves me like you do baby, oh

Like you do baby

When you touch me baby
I believe in heaven above
If you touch me baby
You to tempt me

Nothing moves me like the rhythm moves me
Nothing moves me like you do baby
Nothing moves me like the rhythm moves me
Nothing moves me like you do baby

Nothing moves me like the rhythm moves me
Nothing moves me like you do baby
Nothing moves me like the rhythm moves me
Nothing moves me like you do baby, oh

Like you do baby

Like you do baby

Like you do baby, oh

You take me high

Nothing moves me like the rhythm moves me

Nothing moves me like you do baby

Nothing moves me like the rhythm moves me

Nothing moves me like you do baby
