

# I Don't Cry Anymore

Catie Curtis

We didn't know what to call it  
We were just sixteen  
I kept your picture in my pocket  
Though you were always with me

And we thought no one would notice  
If we followed all the rules  
But they found out about us  
And kicked us both out of school

I, I don't cry anymore  
I, I don't cry anymore

We drove across the country  
We didn't know where to go  
And we leased a hotel room  
Somewhere in Idaho

But the whole thing scared you  
So you took a bus back home  
I couldn't talk to my family  
So I went on alone

I, I don't cry anymore  
I, I don't cry anymore

I still think about you  
Though we never talk  
I heard that you got married  
And I put your picture in a box

But I hope that you're not sorry  
For the choice you made  
I'm finally alive again  
I hope your body's not your grave

I, I don't cry anymore  
I, I don't cry anymore
