

# Hypogastric Combustion By C-4 Plastique

## Cattle Decapitation

We have our ways to make you die  
Your request for a pleasant death has been denied

1,000 degrees  
Disintegration above the knees

C-4 plastique, strapped to your chest  
Detonation is imminent  
A loud, unsightly death

Jammed in your rectum  
Duct-taped to your genitals  
Detonation is imminent  
Flesh is flammable

Within the blackened soil of a human heart, awaits the bastard  
to be blown apart

Unstable explosives lodged between your teeth  
A pharyngeal depth charge - dissolve what lies beneath  
Level zero trauma - deceased on impact  
Volatile incendiary turns crimson insides black

Obliterate all plexus  
Packed hypogastria with plastique and dynamite  
Appendages take flight  
Detonate. Volatile. Discharge.  
Epicenter. Relocate. Renovate.  
All systems destroyed. Annihilate.  
Phrenic, hepatic, renal, spermatic.

A bursting collage of human anatomy  
The structure dissolves in goreified calamity

Jammed in your rectum  
Duct-taped to your genitals  
Detonation is imminent  
All flesh is flammable

Hypogastric combustion  
Airborne pieces spread  
Umbilical prolapse  
Fragments - a crimson shade of red
