## Cattle Decapitation

Freak of unthinkable proportions  
Perfect candidate for abortion  
Future double-suicide from shotgun blast  
Rectally twins-and joined at the ass  
Some things deserve to die  
Severed siblings with a surgical knife  
Buildup of waste at articulation  
Installed colostomy for shit irrigation  
Purchased for science and mutant research  
Human guinea pig  
Waste not, want not  
How can there be a god  
That brings atrocities to its creation  
Born into hell-mandatory torment  
Biologically malformed, existence is futile  
We bring disease  
And physiological agony  
Nobody ever said that life was easy
