

## Suspended In Coprolite

### Cattle Decapitation

Millions of years before the apocalyptic age soon  
coming  
Intelligent life forms may evolve to destroy all over  
again  
This inherent trait in the strands of our DNA  
Transcending race, retaining order of man's sole  
purpose  
Destroyer of the self and anything in its path

Human remains - fossilized - in feces  
Human remains - extracted DNA - cloning the slaves

Like insects in amber. Suspended in time. Fecal blood-  
line.

Anthropological goldmine  
Suspended in coprolite

Thousands of years of bipedal mammalian hierarchy!  
Swept clean by the neolith - the war to end all whores  
of earth  
...of all things. What it touches it turns to death  
No more. Never again. The world now rid of humans  
De-evolution.

Human remains - fossilized - suspended in coprolite  
Human remains - ancient DNA - intolerable vertebrate

We are the dregs  
We are humans

Never again.  
Never again.

Like insects in amber. Suspended in time. Fecal blood-  
line.

Ardipithecus Ramidus Apocalypticus  
Suspended in coprolite

Embedded in the earth, never to destroy it again.  
Never Again.
