Millions of years before the apocalyptic age soon coming

Intelligent life forms may evolve to destroy all over again

This inherent trait in the strands of our DNA Transcending race, retaining order of man's sole purpose

Destroyer of the self and anything in its path

Human remains - fossilized - in feces
Human remains - extracted DNA - cloning the slaves

Like insects in amber. Suspended in time. Fecal bloodline.

Anthropological goldmine Suspended in coprolite

Thousands of years of bipedal mammalian hierarchy! Swept clean by the neolith - the war to end all whores of earth

...of all things. What it touches it turns to death No more. Never again. The world now rid of humans De-evolution.

Human remains - fossilized - suspended in coprolite Human remains - ancient DNA - intolerable vertebrate

We are the dregs We are humans

Never again. Never again.

Like insects in amber. Suspended in time. Fecal bloodline.

Ardipithecus Ramidus Apocalypticus Suspended in coprolite

Embedded in the earth, never to destroy it again. Never Again.
