

The Ripe Beneath The Rind

Cattle Decapitation

Flesh shall flay
Peeled back -- exposing the nutrients of contents of
mammal
Nutritious, delicious fruit

The stratified-squamous: keratinized
Epithelia dissected
Pseudo-stratified columnar, uni-cellular goblets
(cells) secreting mucus
Gored out

The flesh is ripened - ready to gorge
Visceral contents empty on the floor
Like a fine wine the organs disgorge
Victim lies begging but I'm wanting more
The pain is insane, a new anus is torn

Gaping slice
Opened wide, peeling rind -- bleeding, spurting
everywhere...
(now revealing the salty goodness beneath and flash
frying it)
Lancing meat
Tender outside -- juicy inside - disgusts me...
Chopping, dicing, scrutinizing, dissecting and
separating

A corpse is still a corpse, of course we dine with no
remorse

We've sharpened all the knives to know the ripe that's
beneath the rind
A blood lust curiosity, what makes these humans tick?
I've known it all my life...
BLOOD

Flesh shall flay
Peeled back -- now exposing the nutrients of contents
of mammal
Nutritious, delicious fruit

The stratified-squamous: keratinized
Epithelia dissected
Pseudo-stratified columnar, uni-cellular goblets
(cells) secreting mucus
Gored out

And like a wild boar your head is hunted
And like a cantelope your head is opened
And like a pork belly your skin seared sterile
And underneath it lie the lies, the murder, the man,
the meat
