

# The Ripe Beneath The Rind

## Cattle Decapitation

Flesh shall flay  
Peeled back -- exposing the nutrients of contents of  
mammal  
Nutritious, delicious fruit

The stratified-squamous: keratinized  
Epithelia dissected  
Pseudo-stratified columnar, uni-cellular goblets  
(cells) secreting mucus  
Gored out

The flesh is ripened - ready to gorge  
Visceral contents empty on the floor  
Like a fine wine the organs disgorge  
Victim lies begging but I'm wanting more  
The pain is insane, a new anus is torn

Gaping slice  
Opened wide, peeling rind -- bleeding, spurting  
everywhere...  
(now revealing the salty goodness beneath and flash  
frying it)  
Lancing meat  
Tender outside -- juicy inside - disgusts me...  
Chopping, dicing, scrutinizing, dissecting and  
separating

A corpse is still a corpse, of course we dine with no  
remorse

We've sharpened all the knives to know the ripe that's  
beneath the rind  
A blood lust curiosity, what makes these humans tick?  
I've known it all my life...  
BLOOD

Flesh shall flay  
Peeled back -- now exposing the nutrients of contents  
of mammal  
Nutritious, delicious fruit

The stratified-squamous: keratinized  
Epithelia dissected  
Pseudo-stratified columnar, uni-cellular goblets  
(cells) secreting mucus  
Gored out

And like a wild boar your head is hunted  
And like a cantelope your head is opened  
And like a pork belly your skin seared sterile  
And underneath it lie the lies, the murder, the man,  
the meat
