

## Ain't Just Another Story

Caught In The Act

Girl I've never been rich  
I ain't got much to give  
but I would gladly sacrifice  
everything that I own  
take my body and soul  
if you would be here in my life

I can't sleep, sleep at night  
with you running  
through my mind  
although you make me smile  
the situations  
driving me wild

So I wrote you this song to show you the way  
my love is the pen my heart the page  
my soul is the melody, gave each part of me  
this ain't just another story of love

words go proud in my head  
so much needs to be said  
there are other ways to let you know  
no one thinks that a guy  
has the right to be shy  
but I've only this way to let it show

I can't sleep, sleep at night  
without you here to hold me tight  
read between the lines  
you'll see that I want you in my life

Never been one for talking  
had to find a way to open your eyes  
girls I've been losing so much sleep  
so while I'm awake I write down all the feelings I hide
