Ain't Just Another Story

Caught In The Act

Girl I've never been rich
I ain't got much to give
but I would gladly sacrifice
everything that I own
take my body and soul
if you would be here in my life

I can't sleep, sleep at night with you running through my mind although you make me smile the situations driving me wild

So I wrote you this song to show you the way my love ist the pen my heat the page my soul is the melody, gave each part of me this ain't just another story of love

words go proud in my head so much needs to be said there are other ways to let you know no one thinks that a guy has the right to be shy but I've only this way to let it show

I can't sleep, sleep at night without you here to hold me tight read between the lines you'll see that I want you in my life

Never been one for talking had to find a way to open your eyes girls I've been losing so much sleep so while I'm awake I write down all the feelings I hide
