

Let's Do It

Caught In The Act

It's all right, all right
Let's do it
Love the way you do it
Any way you do it
Do it to me one more time
Baby
There's something about you
Something about you right
Baby
You're driving me crazy
Let's get together tonight
You blow my mind
Yeah everything about you so fine
Do it to me one more time
Let's do it
Love do way you do it
Anyway you do it
Do it to me one more time
Anyway you do it
Do it to one more time
Oh baby
Your love
Your love as sweet as sugar
And only you can satisfy me
Our love is something so special
So good together
