Never Gonna Change

Caught In The Act

Never gonna change the way Never baby No Irm never gonna change the way I feel about you know

Three a.m. Irm alone tonight Watching the rain dancing in the street light The pain is growing stronger inside I realise that yourre the one missing from my life I know every single tear you cried Oh baby hold my name inside Tell me you can forgive me know

No Irm never gonna change the way I feel about you know Oh no I would give up everything To turn back the hands of time Irm on my knees Irm begging you please give me one more chance Just to make it right No Irm never gonna change the way I feel about you know I tried to hide a wall of disguise

I just can't go on baby Living a lie In a moment of weakness I was so blind I just can't believe What I was willing to sacrifice I know every single tear you cried Oh baby hold my name inside Tell me, can you forgive me know

If I could turn back the time You know Ird make it so right Ird do anything to hold you baby tonight And baby you know I don't mean maybe I say it from the heart Cos you're the love of my life I would give everything To turn back the hands of time Irm on my knees Irm begging you please Give me one more chance Just to make it right
