

## Runaway

### Caught In The Act

Run run run runaway with me  
It's time to let your heart run free  
So run run run runaway with me  
Forever we will be

Run runaway  
Run runaway

When I saw you dance all alone  
That's what I knew, I was coming home  
No more lies, no more tears  
I need to have you here

I want what you want  
You need what I need  
Give it to the way we feel tonight

And runaway  
Run runaway  
Run runaway

Take my soul, take my heart  
This could be heaven right from the start  
I'll touch you here, I'll touch you there  
Wanna kiss your body everywhere

And runaway  
Run runaway  
Run runaway

You and me  
We don't care what friends may say  
Take our love and run runaway  
You and me  
Should be together night and day  
Share in our love and run runaway  
And runaway
