Apex Predator

Cavalera Conspiracy

You can be seen the predator's delight Enjoy the fear in your prey's eyes Settling to unleash your savage might As the helpless before you lies

No chance is there for captivity nor fight For mercy with your heart has no ties No particular target to apply it It works either each way you denied it

Apex predator apex Apex predator apex

Only one response to the carnivore On wings feathered with holy terror Down the throat, the only action Momentary lapse of perception
