

Sanctuary

Cavalera Conspiracy

Loaded with dynamite
I don't give a fuck 'cause
Everybody die tonight
Call me negative
Call me what you want
You are nothing
Never was...never will
My hostility
My sanctuary
My reality
My sanctuary...underground
Coming with the storm
You wish you were never born
Fucked up reality
I'll take your soul and plant my seed
My hostility
My sanctuary
My reality
My sanctuary...underground
No excuses, no regrets
Everybody die tonight
Everybody die tonight
No divisions, no turning back
Everybody die tonight
Everybody die tonight
Sanctuary, sanctuary
Everybody die tonight
Everybody die tonight
