

# Just Like You Want It

Cavo

Another Saturday night another fire bright  
And I can't wait to watch the day break  
Somebody's falling hard  
Another calling Card  
And I can't wait to see your face change  
I don't really want to let things go too far  
I watched it changed from good to bad  
I don't really want to make it too hard  
But things are changing way too fast

We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted  
We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted

Another photograph somebody's epic path  
And I can't wait to see your smile fade  
Somebody's falling hard  
Another calling Card  
And I can't wait to see your sky cave  
I don't really want to let things go too far  
I watched it changed from good to bad  
I don't really want to make it too hard  
But things are changing way too fast

We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted  
We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted  
We loved just loved how we wanted yeah

I don't really want to let things go too far  
I watched it changed from good to bad  
I don't really want to make it too hard  
But things are changing way too fast

Just like how we  
We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted  
We all say wrong all say wrong  
And we loved just like now we wanted we  
Love just like how we wanted  
And we loved just like now we wanted we  
Love just like how we wanted
