

Stay

Cavo

I've been dreaming with my eyes wide open
My eyes wide open yeah
I've been living with my broke heart open
My broke heart open yeah
Couldn't handle it if you walk away
Just stay stay

Stay stay, stay stay
Just stay with me now
[repeat]

Tell me how you feel
Tell me is this real
Tell me do you know your wrong from right
Tell me are you there
Tell me do you care
Tell me do you dream of me and I

I've been dreaming with my eyes wide open
My eyes wide open yeah
I've been living with my broke heart open
My broke heart open yeah
Couldn't handle it if you walk away
Just stay stay

Stay stay, stay stay
Just stay with me now
...

Come the morning light, is it over
Somethings I don't want to change when we're sober
Call it what it is
No more promises
I need you to say
That I want you to stay

Stay stay, stay stay
Just stay with me now
...

I've been dreaming with my eyes wide open
My eyes wide open yeah
I've been dreaming with my eyes wide open
My eyes wide open yeah
