

# Take Me Home

Cavo

Darker now the sky appear  
Outside a broken window  
Watch the rain come down the rain come down  
So much more that I could say  
But now I sit in silence yeah we're out of sound  
We make no sounds  
I wish you lied to my face  
Keep playing these same old games  
The bridges burn that you call home  
Now you don't

Something bout this [?] that doesn't feel right  
Made a little promise in the middle of the night  
I wish I never known I wish I never known  
Something bout this fire in the pouring rain  
Knew it'd never feel the same I wish I never known  
I wish you'd take me home I wish you'd take me home

The brightest start just disappeared  
Outside watch the rain come down the rain come down  
The moments all just fade away  
And now I sit in silence  
We make no sounds  
The bridges burn that you call home  
Now you don't

Something bout this [?] that doesn't feel right  
Made a little promise in the middle of the night  
I wish I never known I wish I never known  
Something bout this fire in the pouring rain  
Knew it'd never feel the same I wish I never known  
I wish you'd take me home I wish you'd take me home  
Oh-ohh take me home  
Now I wish you'd take me home

Old bridges burn that you call home  
Old bridges burn that you call home  
Old bridges burn that you call home  
Now you don't

Something bout this [?] that doesn't feel right  
Made a little promise in the middle of the night  
I guess I've always known I wish you'd take me home  
Something bout this [?] that doesn't feel right  
Made a little promise in the middle of the night  
I wish I never known I wish I never known  
Something bout this fire in the pouring rain  
Knew it'd never feel the same I wish I never known  
I wish you'd take me home I wish you'd take me home  
Now I wish you'd take me home

Now I wish you'd take me home  
Now I wish you'd take me home  
Now I wish you'd take me home
